Randy Fandal
Mayor

Daniel W. McElmurray, PLA, AICP
Director of Planning

DATE: _____

ACKNOWLEDGEMENT OF TREE REMOVAL MITIGATION REQUIREMENTS

As provided for in Municipal Code Appendix A Part 2 Section 2.25.B.5.

Please provide confirmation of providing mitigation for the removal of one or more Protected or Heritage trees through one of the two methods (or a combination thereof) provided for by Municipal Code Appendix A Part 2 Section 2.25.B.5.b. which allows for trees removed with a tree removal or land clearing permit will be required to be replaced on a one tree per each 12" DBH removed tree or fractional portion thereof or shall meet the provisions of section 2.25.B.5.e.

Those provisions state that when plantings are impractical due to lack of sufficient planting area, presence of utilities or other obstructions, or lack of suitable soil and growth medium to plant a tree, the Planning Director can authorize payment in lieu of required plantings to mitigate tree planting requirements.

If you are going to provide Payment in Lieu, the check should be made payable to City of Slidell with a notation on the check indicating the payment is for *[insert your address] Tree Mitigation*. This money will be deposited into the tree management budget for the Slidell Department of Parks and Recreation which handles all public tree activities.

Tree removal information and mitigation measure(s) must be noted on the tree removal or land clearing permit.

I, (owner/authorized agent) _____

of (address) _____

hereby acknowledge my responsibility per Municipal Code Appendix A Part 2 Section 2.25.B.5.b. which requires trees removed with a tree removal or land clearing permit to be replaced on a one tree per each 12" DBH removed tree or fractional portion thereof.

Signed this ____ day of _____, 20____.

Property Owner
