Mr. Steve Buser, Building Official
P.O. Box 828
Slidell, LA 70453

Dear Mr. Buser:

We wish to thank you for the information in your letter of April 20 and for the copy of Ordinance No. 1108 which adopts the National Building Code without stating a date of edition.

There are two items that should be corrected. The National Electrical Code is published by the National Fire Protection Association. The last edition that we published, as the National Board of Fire Underwriters, is dated 1962.

The second item is that the last edition of the National Building Code that was published by the National Board, not Bureau, of Fire Underwriters is dated 1955 with 1957 and 1963 amendments. The 1967 and 1976 editions have been published by the American Insurance Association. The cover of the 1967 edition has a notation that the Association is the successor to the National Board of Fire Underwriters. Therefore, at the appropriate time, it is suggested that National Bureau of Fire Underwriters be changed to read "the American Insurance Association."

We do not recommend that a municipality adopt a model code without stating a date of publication. If you or your City Attorney desire information on this matter, please let us know.

A complimentary hard bound copy of the 1976 edition of the National Building Code is being sent to you.

Should you have any questions or if we can be of further assistance, please let us know.

Very truly yours,

G.M. Watson, Manager
Building & Fire Prevention Division
